Publishing & Advertising

Hello Members,

We thought we might get a little head start on signing in on the newsletter. Last Friday on the night of the 13th we held our monthly Club meeting via Zoom. This is the month we officially elect officers to the Board of Directors for 2021. Given there were no contested positions, those that entered their names for positions were duly voted in.

David Osgood - President
Norm Wood - Vice President
Allie DeCampo - Secretary
Dean Gagne - Treasurer
Brent Aucoin - Office-at-Large
Tom Stewart -Membership Director

The good news here is that we have a blend of longtime members and newer members who will be working together to combine what has worked best for the club in the past with new ideas for the present.

Once the election was finalized all the new directors, along with everyone else who attended the virtual meeting, shared how they got involved with the club. This was quite interesting as each individual brought their personal stories for all to hear. I was amazed at how many years people have been with the club.

At the moment we are seeing a spike in virus which can be a little unsettling and concerning. The good news is that three major drug companies have vaccines coming down the pike.

So, what does that mean to us or any other club for that matter? For the interim we will continue with Zoom meetings and look for the right opportunity to resume traditional club meetings. With any luck that could be in March.

If that is the case we could be planning a Spring Fling in May. Last year we were on a roll as far as preparation and volunteers for the event committee. We will be looking for a new team to step up and be even more creative.

Continued on page 3

Gate City Corvette Club is one of the hundreds of Corvette clubs throughout the United States and Canada. The purpose of GCCC is to make being a Corvette owner more fun. GCCC meets at 7:00 pm the second Friday of the month at MacMulkin Chevrolet, 3 Marmon Drive, Nashua, New Hampshire.

Just a few words about our club... When I saw us all come together for the Dan Zelonis birthday celebration I could not have felt more satisfaction that I was in the right place at the right time. Let us not forget that this thing called Life - It Is Short! Reaching out to a member who has devoted so much time to this organization is really what it is all about.

Last night (November 18th) we gathered at Walmart for the Adopt a Family shopping. Who would be helping out for these families if Gate City Corvette Club did not contribute to the effort? Heather and Larry spend hours preparing for this every year and all they ask is for a few volunteers to help with shopping for the kids.

Norm Wood announced last night that his car has been built! I suggest that when he takes delivery we all go down to MacMulkin and join in on the celebration.

I believe we will come out of this 2020 pandemic and be even better and stronger in 2021. Once other clubs start scheduling events again too, our calendars will be full of things to do. Spring Fling could be the ice breaker for Corvette owners as everyone looks to us to get the year started. I also would love to see Vettes to Vets be a huge success in 2021.

I end this by saying this is your club. Every individual has a place at the table. The new Board of Directors welcomes your ideas and participation.

Best,

*David Osgood
President Elect*

Message from the Veep...

It's sad to say, but it's time to admit, another Corvette season is winding to a close. We have had our last official club meeting of the year, and a new board stands ready to hit the ground running for 2021. I'll be coming down off the board this year, and look forward to enjoying things from the back of the room again for a while. Though I have a feeling, it's not going to be that simple – since I'm already looking at some options to help keep us active this coming year. The new board looks like it's already got a lot of great ideas for the coming year as well, and I look forward to seeing what the future holds for us.

2020 has definitely been a crazy year – but hopefully things are going to start settling down for everyone soon. I'm hoping we have a much more event-full calendar for next year. So, think positive thoughts, wear your mask, and I hope to see you all again soon. Stay safe out there!

-Larry "The Departing Veep" Shields

That Poor Vette

Photo Credit: Ash Monroe

The Tail of the Dragon is an amazing driving road – but sometimes folks forget to play the “yellow line is lava” game and ensure they’re staying in their lane. An older Miata went into one of the corners too hot when they misjudged an exit point on one of the many curves, and plowed into the back of this poor 2020 C8, taking the rear wheel clean off the car. Thankfully no one was injured, though both cars were totaled.

That Certain Moment

Reprinted from a 1978 Newsletter

The following article by past president and founder, Jim Mottram, was first published in Stress Kracks in 1978 and reprinted in 1980. It is still timely today.

When this club was founded back in 1975, it was my hope to establish an organization which would bring Corvette enthusiasts together for all sorts of social, entertaining and/or competitive events. I never imagined that we would become such a well-known club throughout New England due to events such as "October Vettes", but I also never considered the possibility or the impact of a "certain moment". That moment when a "new" member becomes an "old" member. You're probably wondering what I mean. Let me put it this way.

My "moment" came when I first saw the other two 'Vettes come into the parking lot to meet me for the first GCCC trip. A club had been born! For Steve and Ronnie, who went on that first trip, it was probably the fun we got out of a little red football that day at Plum Island. We were suddenly "old" members of GCCC. You can ask about the "certain moments" of others who have made the transformation. When did they feel they had become a part of GCCC? Maybe it happened at a meeting, or a rally, or at "October Vettes" or another event. They were no longer on the outside looking in. They no longer found themselves sitting through meetings in silence. They began to experience what being a member of GCCC was really like. The problem with this "certain moment" is that it has no set schedule; it can happen at any time. As soon as you join, a month later, or even six months can go by before it happens to you. The sad part, for me anyway, is that some people never got to have theirs. They joined, they felt like new members, like they were on the outside looking in, and suddenly "disappeared" before finding out what it could be like on the inside. Did you know that there was a couple who had joined GCCC and were on the brink of "disappearing" but they had their "certain moment" and now they are not only "old" members, but they have been so much help to me this year that I couldn't imagine GCCC without them.

So why am I writing this? I'm writing it because I'm sure all "old" members will agree - they couldn't have had their certain moments without the help of the "old" GCCC members, and right now, we have quite a few "new" members who are interested in finding out what GCCC is really like. Just like you were when you first joined. And they are on the outside looking in, just like you were. Let's get them in. Don't let them disappear.

Thank you to Al Whittier for remembering where he put this and bringing it to our attention for publication again in 2020.

Gate City Corvette Club Zoom 'Business' Meeting

January 8th at 7:00 pm

Agenda TBA

Social Wednesday Zoom Meetings 7:30 pm

December 16th

January 20th

February 24th

March 24th

BYOB & BYOS (snacks)

Please don't hesitate to reach out if you would like more information or need assistance joining in the meetings. We are happy to help!

Dave Hill (603) 860-8737 davennh@comcast.net

Larry Shields (603) 673-9653 larry.shields@comcast.net

Greetings,

I've assumed my role as secretary a little early so that Dave O. is free to focus on his presidential duties. Our last virtual meeting was held on Friday, November 13th. Dean presented the updated treasurer's report. We held our election of Board of Directors for 2021 as reported in the president's *First Word*.

After the business portion of the meeting, Dave asked all in attendance to share a little of their personal history as members of Gate City Corvette Club. There was one common thread - everyone was happy that they decided to join and they remain hopeful for the future of the club.

On a side note, thank you to outgoing 2020 officers. It was a challenging year to be on the board. Special thanks go to Dave Hill for making an attempt to keep everyone connected by setting up Zoom meetings.

Our final gathering of the season was the well-attended birthday celebration for Dan Zelonis. We were successful in keeping the "drive-in" a surprise with help from Gayle. When our large caravan arrived, we were greeted by their neighbors who directed parking and even had a couple of their own prized vehicles on display. It turned out to be a memorable morning for all. (Please see photos on the following pages.)

Ruth Wintle sends a message of thanks to all her friends at GCCC for thinking of her after the recent death of her sister. She said although it is a sorrowful time, she knows that her sister lived her life the way she wanted. It is a sad reminder that Coved 19 is a serious virus and we cannot let our guard down. Ruth is hoping to head north next summer and, if so, looks forward to attending the annual picnic. Oh yes...if she can make it she promises to bring our favorite rummy bears!

The 1978 article written by GCCC's founder and first president is just as timely today. I think we can all relate. I'm not sure when my "certain moment" occurred. I do remember feeling very much an outsider in the beginning. At some point I began to feel like a member and it was fun and exciting. In general terms, I would define that "moment" as when you are suddenly inspired to invest your time and whatever skills you may have for the advancement of something you consider worthwhile.

It is the dedication of our members that allows the legacy to continue. Our club is made up of people of diverse backgrounds and life experiences, and together we possess an array of knowledge and talents. With our collective ideas and enthusiasm we can make the future of GCCC as bright as ever!

"Hi Honey, How did you get the tree home?"

OUR FIRST ALFA ROMEO EVENT

Larry & Ingrid Goelz

As some of you know, we have a 1974 Alfa Romeo Spider, purchased in August 2009 at the annual Owls Head Transportation Museum in Owls Head, ME. Shortly after the purchase of the car we joined the Alfa Owners of New England (AONE) and we have remained members since.

Several weeks ago I got a call from our Alfa maintenance and restoration shop, Veloci Imports, that AONE was having one last event for the year – cruise to Searles Castle in Windham, NH for coffee, a tour of the castle, and a chance to win door prizes. Given there has been little in the way of events we decided we would attend the castle cruise. NOTE – This would be the first event we have attended in all the years of being members! Through all the years we were busy attending Corvette function and events and working on the 2014/2019 NE Caravan committee.

Figure 1 Our 1974 Alpha Romeo Spider

Everyone was to meet at the castle parking area at 8 AM – this was a challenge as the early morning temperature was 32 degrees F. The Spyder has a 4-cylinder engine and runs cool, meaning there would be little heat during the cruise. About 15 minutes before arriving we could sense a little heat but not enough you warm us up. When we arrived, there were about 12 Alfa's in the parking lot, and in the end, there were about 20. Not having been around a gathering of Alfa's, it was great to see all the various models.

Figure 2 Arriving at Searles Castle

The castle is a ¼ scale replica of the original in England. The long drive up into the courtyard is winding and provides a good view of the structure. Upon entering the courtyard, we parked the cars then went inside for coffee and pastries.

Currently the castle is used for weddings and planning is underway to add corporate events and group gatherings to the menu. We were given an overview of the castle history, who the current owner is and what his plans are, and status of restoration/maintenance works.

Figure 3 Driving up to the Courtyard

Figure 4 Parking in the Courtyard

After the overview we walked through the castle. It is in exceptionally good condition and as we walked through the rooms, we were reminded of the tours we have made of castles and estates in England and France. It was quite enjoyable.

Overall, we were pleased with the reception we received from the AONE members and it reminded us of our reception by GCCC during our first year in the club. We look forward to attending other AONE events in the coming year.

One last item. Veloci Imports owner, Jo Mount, brought his wife 'newly purchased (with some consultation from our own Al Whittier) 1964 Corvette convertible. It is silver with red interior.

Figure 6 The Castle

Figure 7 Castle Wildlife

Adopt a Family Shopping Event

by Heather Shields

When I sat down to write this, I asked Larry what year we joined the club. The answer surprised me a bit. Ten years we've been part of Gate City, and that means I've been taking part in the Adopt a Family program for just as long. We'd barely been in the club half a year, when Ruth Wintle asked for folks to help out with the program that year. Wanting to help out and become better acquainted with people in the club, I volunteered to help out. Spent a fantastic day with Ruth, her husband Amos and helped bring a little joy to some folks in need.

Since then, the Adopt a Family has transitioned into a yearly activity I look forward to running for the club. Thanks to the generosity of everyone else in the club; we've gone from helping a handful of families a year to a four year run of double that, with ten children a year being adopted by the club.

The program has changed a lot from the early years, which I sadly never got to partake of myself. Back in the early days, the club could meet with the families, get to know them and even surprise them by showing up with a tree and all the decorations needed. These days due to increased privacy settings, we can't do that anymore. Still it's always a great day to get the list of kids for the year and look down to see what they're all wishing for knowing that we'll be the ones who'll bring smiles to them on Christmas morning. (Even if half the gifts are much needed articles of clothing like socks! Boo!)

The shopping trips have grown in number of volunteers as the number of kids shopped for grows as well. It's always a great time. While we don't shop in a giant group, everyone constantly crisscrosses paths in the store and there are always conversations about what the heck the newest must have hard to find toy of the year actually is. Thank goodness for smart phones or we'd never find the answer to some of those questions.

It's also always memorable the line of

shopping carts queued up at the register, especially the couple of years where it seemed every child wanted (and got) a bicycle or scooter. I'll never forget the image of Jim Gorman riding a bike down the main aisle while Larry wheeled two other smaller bikes behind him.

We don't often hear back from the families, but we have gotten some wonderful thank you letters over the years letting us know how much the parents appreciated the gifts and how much it helped take the stress of everyday life away for a few days. Many of these families are struggling to get back on their feet, find safe homes and put food on the table each day. For them the idea of spending any money for toys is enough to bring them to tears. So while we never see it ourselves, it's something that warms me up knowing I've brought those families to tears of another kind, tears of joy in watching their families have a wonderful Christmas. So thank you to everyone in Gate City who helps make those tears of joy possible!

Happy
Holidays!

Christmas Gifts Perfect for a Corvette Fan

<https://www.corvsport.com/christmas-gifts-perfect-corvette-lover/>

Corvette owners are almost always found at the very top of Santa's "nice" list. After all, there are few things nicer than owning a Corvette, except being able to drive it in the summer and, just as important, customize it over the long, cold winter. While the market is literally flooded with branded and trademarked products wearing the "Corvette" logo or emblems, most Corvette Christmas related items can be classified in one of four categories – auto parts, accessories, memorabilia and outerwear. Below are some ideas.

Auto Parts

Cold Air/Performance Air Intake System

Cold Air/Performance Air Intake Systems are a great way to quickly bolster engine performance. Available from a number of well-known automotive manufacturers including K&N, Mamba and BBK, a cold air intake add horsepower and additional torque to any Corvette, which is sure to bring a smile to your Corvette owner's face. While prices will vary, most cold air intake systems range between \$400-700.00.

Exhaust Systems

Factory Corvettes are fast and sound good. Corvettes with an aftermarket exhaust system are faster and sound even better. Prices vary, but most Corvette exhaust systems range from \$800-\$2,500.

Accessories

Corvette accessories come in all shapes and sizes, though many (if not most) are still designed to either enhance the factory look of the car or to provide your Corvette owner with the tools to clean and protect their prized investment

Car Covers

Whether storing a Corvette in the garage or out in the elements, protecting that fiberglass beauty can be as simple as providing it with the right car cover! In today's market, form fitting covers provide protection to the car's finish, while exterior covers can ensure protection from harmful UV light, damaging rain and even from hail!

Fender Gripper Front End Covers

Because of their low height and wide stance, accessing the engine of almost any Corvette can be challenging, and will result in constant contact with the car's exterior – which means one thing, SCRATCHES! To help eliminate the worry of working on your car's engine, a number of third-

party manufacturers have produced front end covers for just about every generation of Corvette. These covers, which are custom designed to fit perfectly with the generation of Corvette for which they were designed, will protect your car's exterior while working under the hood.

Memorabilia

The word "memorabilia" applies to just about anything that can be labeled and marketed with the Corvette logo that doesn't bolt onto an engine or a Corvette chassis. From salt-and-pepper shakers, to custom Corvette office furniture, there is a multitude of merchandise available today.

Corvette Generation Glass Sets

Few things are more festive than drinking egg nog at Christmas, or raising a tasty libation to toast in the New Year. But what if you could celebrate the holidays by drinking your favorite beverage from a Corvette glass? Well now you can!

Brought to you by the Corvette Store, the Corvette Generations Glass Set is a set of six 14 oz. glasses. Each glass is etched with the emblem of the first six-generation of the Corvette (C1-C6). Priced at \$65.95, this glass set is great for every special occasion (and will make every day feel like a special occasion!)

Corvette 4-Piece BBQ Grilling Utensil Set

Yes, we mentioned it above, and we were serious. If the Corvette enthusiast in your life enjoys spending their time over the open flames, cooking up a massive steak, some delicious ribs, or even burgers and brats for your next family reunion, then the Corvette 4-piece BBQ Grilling Utensil Set will only improve their experience!

While these grill sets vary in price depending on where you find them - most can be purchased for between \$35 and \$40.00.

The Corvette Wireless Mouse

If your Corvette enthusiast spends more time in the office than they do in their car, then this final item on our memorabilia list is a “must-have” for either their home office or workplace.

The unit adds a cool factor with light-up headlights and taillight, while also providing complete functionality as a computer mouse. Again, prices may vary, but the Corvette wireless mouse normally range in price from \$40-\$50.00, and are available online everywhere – including markets like [Amazon.com](https://www.amazon.com).

Outerwear

From socks to pajama pants, there is Corvette outwear for every shape and size. Like everything else in the Corvette lifestyle, Corvette clothing is a massive market that only continues to grow with each passing year.

Corvette Driving Shoes

Developed by Piloti – the company that developed the driving shoe for professional drivers/racers – the Corvette Piloti Driving Shoes are an ideal gift for the Corvette owner in your life – especially for those that have Corvettes equipped with a manual transmission.

Available in either a C7 red/black or a C7.R racing yellow/black option, the Piloti driving shoes can be purchased online for \$135.00.

Corvette Pajamas

Available for both men and women, the Corvette Pajama pants are a soft flannel pant with elastic waistband that features the logos of the Corvette generations. The logos, which are screen-printed

onto the flannel material, provide year round comfort and proudly display your Corvette enthusiast's favorite pastime – that is, when he/she isn't wrapped up in front of a fire with you!

Priced at \$45-\$50, these pajamas can be found at most online retailers.

Corvette Socks

Socks are one of the largest sellers during the holiday season, and we felt that the Corvette community should get on the action and be aware that there is a better alternative than the boring white or black tube socks that almost everyone gives/receives during the holidays.

And so, yes, we end our Corvette Christmas wish list with the most essential Christmas present of all –the Corvette Emblem socks!

Available thru the [Corvette Store](#), the Corvette emblem socks (available in several generations – shown in the C7 pattern here) are an affordable stocking stuffer or an awesome little under-the tree filler because they're both practical and awesome at the same time. The socks feature both the car's emblem and the "Corvette" script for the specific generation, and come in an assortment of cool color combinations including red/black and white/black.

Best part of all, they are just \$9.00 per set, so you can stock up on Corvette socks for all the enthusiasts in your life.

There are many more ideas online for memorabilia, clothing, jewelry, etc.

A Politically Correct Christmas Poem

'Twas the night before Christmas and Santa's a wreck...
How to live in a world that's politically correct?
His workers no longer would answer to "Elves",
"Vertically Challenged" they were calling themselves.
And labor conditions at the North Pole,
were alleged by the union, to stifle the soul.

Four reindeer had vanished without much propriety,
released to the wilds, by the Humane Society.
And equal employment had made it quite clear,
that Santa had better not use just reindeer.
So Dancer and Donner, Comet and Cupid,
were replaced with 4 pigs, and you know that looked stupid!

The runners had been removed from his beautiful sleigh,
because the ruts were deemed dangerous by the EPA,
And millions of people were calling the Cops,
when they heard sled noises upon their roof tops.
Second-hand smoke from his pipe, had his workers quite frightened,
and his fur trimmed red suit was called "unenlightened".

To show you the strangeness of today's ebbs and flows,
Rudolf was suing over unauthorized use of his nose.
He went to Geraldo, in front of the Nation,
demanding millions in over-due workers compensation.

So...half of the reindeer were gone, and his wife
who suddenly said she'd had enough of this life,
joined a self-help group, packed and left in a whiz,
demanding from now on that her title was Ms.

And as for gifts...why, he'd never had the notion
that making a choice could cause such commotion.
Nothing of leather, nothing of fur...
Which meant nothing for him or nothing for her.

Nothing to aim, Nothing to shoot,
Nothing that clamored or made lots of noise.
Nothing for just girls and nothing for just boys.
Nothing that claimed to be gender specific,
Nothing that's warlike or non-pacifistic.

No candy or sweets...they were bad for the tooth.
Nothing that seemed to embellish upon the truth.
And fairy tales...while not yet forbidden,
were like Ken and Barbie, better off hidden,
for they raised the hackles of those psychological,
who claimed the only good gift was one ecological.

No baseball, no football...someone might get hurt,
besides - playing sports exposed kids to dirt.
Dolls were said to be sexist and should be passe.
and Nintendo would rot your entire brain away.

So Santa just stood there, disheveled and perplexed,
he just couldn't figure out what to do next?
He tried to be merry he tried to be gay,
but you must have to admit he was having a very bad day.
His sack was quite empty, it was flat on the ground,
nothing fully acceptable was anywhere to be found.

Something special was needed, a gift that he might,
give to us all, without angering the left or the right.
A gift that would satisfy - with no indecision,
each group of people in every religion.
Every race, every hue,
everyone, everywhere...even you!
So here is that gift, it's price beyond worth...

"MAY YOU AND YOUR LOVED ONES, ENJOY PEACE ON EARTH!"
